

EANM Young
INVESTIGATOR
MEETING
JUNE 13-14, 2024
VIENNA

TARGETING THE MICROENVIRONMENT FOR IMAGING AND THERAPY

JOIN THE YOUNG INVESTIGATOR MEETING (YIM)'24!

Mark your calendars for a new edition of the **EANM Young Investigator Meeting (YIM)** in 2024!

Join us for a dynamic gathering of young talents in nuclear medicine, where you can showcase your research on 'Targeting the Microenvironment for Imaging and Therapy', exchange ideas with leading experts, and foster collaborations that drive innovation.

WHY APPLY?

YIM'24 offers a **unique platform to propel your career** and professional network and contribute to the rapidly evolving field of targeted cancer treatments, immunotherapy, radioligand therapies, and molecular imaging in nuclear oncology.

This unique opportunity allows you to:

- **Improve** your scientific knowledge
- **Implement** feedback effectively
- **Enhance** communication and presentation skills
- **Build** valuable professional networks
- **Gain** insights into the scientific publication process
